***DataOnline announces Chart Cryogenic Engineering Systems (Changzhou) Co. , Ltd. as its telemetry partner for The People's Republic of China.***

Berkeley Heights, NJ – April 8<sup>th</sup>, 2009. DataOnline today announced that Chart Cryogenic Engineering Systems (Changzhou) Co., Ltd. ([www.chartchina.com](http://www.chartchina.com)), headquartered in Changzhou City and a subsidiary of Chart Industries, has signed an agreement to sell DataOnline products and solutions in the People's Republic of China.

Louie Lim, DataOnline Asia Regional Office manager, commented "Chart has been our business partner in the US for quite a number of years. Extending our relationship with Chart in Asia provides local support to our customers in the industrial gas and other businesses. Our products and services complement each other to provide our customers with a one stop solution for remote monitoring needs. This is another success for our Asia Regional Office, based in Malaysia, who have been chartered with the task of growing our distribution network in Asia."

Mr. Eric Rottier, President of Chart Asia Inc., added "our partnership with DataOnline will provide local support for our customers in China as they adopt and expand their telemetry platform. Integrating DataOnline's gauge into our cryogenic bulk tanks enhances and differentiates our product offering. We are excited to expand our existing remote tank monitoring relationship with DataOnline to China."

### **About DataOnline**

DataOnline® is a leading global provider of M2M (Machine To Machine) solutions specifically for the monitoring of remote industrial assets. DataOnline was selected again as top M2M company in 2009 by M2M Magazine ([www.m2mmag.com](http://www.m2mmag.com)) DataOnline specializes in robust and reliable hardware, data acquisition, wireless communications and advanced Web based information management services. Our total end-to-end solutions are quick, easy and cost effective putting you in control with the power to continuously monitor, assess and manage your remote assets via the Internet. From logistics to maintenance and environmental compliance to homeland security, DataOnline has the right monitoring solution for your business application. DataOnline has offices in the US, Europe and Asia. Additional information about DataOnline, including the company's latest news releases, can be found at DataOnline's World Wide Web site at [www.dataonline.com](http://www.dataonline.com).

DataOnline® is a registered trademark of DataOnline LLC.

## **About Chart**

Chart is a leading independent global manufacturer of highly engineered equipment used in the production, storage and end-use of hydrocarbon and industrial gases. The majority of Chart's products are used throughout the liquid gas supply chain for purification, liquefaction, distribution, storage and end-use applications, the largest portion of which are energy-related. Chart has US operations located in seven states and an international presence in Australia, China, the Czech Republic, Germany and the United Kingdom. For more information about Chart, visit [www.chart-ind.com](http://www.chart-ind.com) .
