DataOnline announces Agreement to use China Mobile's GSM services for its customers in the People's Republic of China

Berkeley Heights, NJ – September 9th, 2009.

DataOnline announced today that it has signed an Agreement to use the China Mobile MAS Gateway solution. This solution will provide GSM communications for its range of DataPort remote monitoring devices that are utilized by its customers in the People's Republic of China to remotely monitor and manage their industrial assets.

Louie Lim, DataOnline's Asia Regional Officer manager, commented "The China Mobile solution will allow us to procure and utilize local SIM cards and operate the communications to our remote devices through the China Mobile MAS gateway, which provides a secure, reliable and cost effective interface with our global network of Data Centers. We look forward to providing our customers in China with the best communication solutions available."

DataOnline is represented in China by Chart Cryogenics Engineering Systems (Changzhou) Co. Ltd. (www.chartchina.com), headquartered in Changzhou City.
